The Irish Social Policy Association, which was established in 1997, aims to provide a forum for the analysis, discussion and development of social policy in Ireland, North and South. The Association endeavours to broaden the debate on social policy by providing a forum for discussion that embraces the views and opinion of a wide range of relevant actors. ISPA brings together professionals and non-professionals with an interest in social policy, academics,

policy makers, officials in the civil service and public service bodies, employer and trade union organisations as well as organisations and groups in the not-for-profit sector. Through the Association, discussions and debates have been stimulated on a variety of contemporary social policy issues.
